### **Procedure**

### **Requirements:**

- VirtualBox (5.0.20 r106931)
  - Windows 10 machine
    - Java SE Runtime Environment (1.8.0 91-b15)
    - 2D/3D accelaration enabled
    - VirtualBox Guest Additions
    - Acitve internet connection
    - OpenGL regkey for windows8/10 ()

#### **Resources:**

- Github repository: <a href="https://github.com/JohnnyDeeee/Oils-Well">https://github.com/JohnnyDeeee/Oils-Well</a>
- Java download: <a href="http://javadl.oracle.com/webapps/download/AutoDL?BundleId=210176">http://javadl.oracle.com/webapps/download/AutoDL?BundleId=210176</a>
- OpenGL regkey: <a href="https://forums.virtualbox.org/download/file.php?id=21615">https://forums.virtualbox.org/download/file.php?id=21615</a>

### **Global steps:**

- 1. Create virtual machine.
- 2. Setup machine settings.
- 3. Setup machine drivers.
- 4. Setup software
- 5. Download Game
- 6. Run Game

# Create virtual machine Virtual machine must have the Windows 10 Operating system. OK Setup machine settings Virtual machine must have atleast 125mb video memory and 2D/3D

# acceleration enabled.

# OK

Setup machine drivers

# Virtual machine must have the VirtualBox guest additions installed + the register key for OpenGL support. (reboot after both installments)

# Virtual machine must have Java SE Runtime Environment 1.8.0 91-b15 installed. (download link in resources)

# Download game

**Setup software** 

Download the game from the Github repository/builds/v0.0.6. (repo link in resources)

### Run game

Start the game by double clicking the .jar file or by typing "java -jar ".jar name" in the command-line.

### **Something went wrong**

Send an email with the step that failed and a description of the error
